LINING-OUT STOCK

Better stands. Pot plants have a better root system and stand the shock of transplanting better than bare root stock.

Better growth. Pot plants start off quicker and make a better first season growth; thus they are ready to market sooner.

You can plant later. Pot plants can safely be set out in the field much later than bare root stock. This gives you more planting time in your busy season. With irrigation you can plant nearly all summer.

	<u>SHRUBS</u>	<u>Per 100</u> <u>Each</u>	<u>Per 1000</u> <u>Each</u>
Barberry			
Mentorensis, 2 $\frac{1}{4}$ inch pots25	.20

Scopulorum, Horizontalis	Virginiana Hilli (Dundee)

THUJA (Arbor Vitae)

Thuja orientalis understock

Aurea Nana	Excelsa
Aurea Nana, Dwarf	Crawford's Compact
Bonita	

CUPRESSUS (Cypress)

Thuja orientalis understock

Arizonica (Hardy at Ottawa for many years.)

JUNIPERUS SCOPULORUM

Plant Pat. No. 1070

PLATINUM

New! Recently introduced by us. Brilliant silvery-blue color retained the year around. Dense foliage, requiring very little shearing to make compact and symmetrical. It has never blighted with us.

GRAFTS \$1.00 each

OTHER VARIETIES GRAFTED ON SPECIAL ORDER

WILLIS NURSERY COMPANY, Ottawa, Kansas

FRUIT TREE SEEDLINGS

Ready for shipment in January

300 or more of same variety and grade at 1000 rates.

	<u>Per 100</u>	<u>Per 1000</u>
APPLE SEEDLINGS		
No. 2, 2/16 to 3/16 inch, straight	3.00	25.00
No. 3, about 2/16 inch	2.10	18.00
Special Grade. Straight collar, short roots		
2/16 inch and up. Ideal for wholesale grafting	3.00	25.00
PEAR SEEDLINGS		
Calleryana. We have had the better success with Calleryana pear seedlings than any other pear understock. The bark does not tighten so quickly in hot weather, thus giving a longer budding season.		
$\frac{1}{4}$ inch and up, branched	5.00	45.00
No. 1, 3/16 to $\frac{1}{4}$ inch	4.50	40.00
No. 2, 2/16 to 3/16 inch	4.00	35.00
No. 3, about 2/16 inch	3.00	25.00

PLANTAINERS

Container-growing is increasing by leaps and bounds throughout the United States.

The PLANTAINER is especially designed to meet this demand. To remove the plant just tap it and Zip! Out it comes. One gallon size; 4 drainage holes; made of metal; baked enamel paint.

1. Healthier plants--stronger root system--attested to by satisfied users.
2. Tapered and crimped--permits nesting--space and time saving.
3. Have no rough edges--no serious hand and finger cuts.
4. Made of metal--durable--unbreakable.
5. Clean and sanitary--don't attract vermin and flies.
6. Painted green or black (baked enamel).
7. Enhance the beauty of plants and flowers.
8. Outlast other nursery cans--result--economy! -- larger profits.
